5th Year of Electronics and
Communication Engineering
(2015 – 2020)

Technological University of Maubin,
Ayeyarwady, Myanmar

CERTIFICATE

MMS One Stop IT Solutions (Special
Web Design.)

BIB Training Center OJT Course

SKILLS

- Ruby on Rails
- MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Hotwire (Turbo, Stimulus)
- Trailblazer
- Git & RESTful APIs
- MySQL, PostgreSQL

SOFT SKILLS

- Problem Solving | Adaptability | Teamwork | Quick Learner

NAING LYNN AUNG

WEB DEVELOPER

PROFILE

Web Developer with extensive experience in building and maintaining web applications using Ruby on Rails. Proven ability to mentor junior developers, solve complex technical challenges, and contribute to both maintenance and new project development.

A strong team player who fosters a positive work environment and delivers high-quality results in fast-paced settings. Quick to learn new technologies and currently expanding my expertise in the MERN Stack (MongoDB, Express.js, React.js, Node.js) to build dynamic full-stack applications.

WORK EXPERIENCE

METATEAM MYANMAR Co.,Ltd	2024 APR - 2024 SEP
Senior Web Developer	
<ul style="list-style-type: none">• Collaborated with the development team to enhance and maintain existing web systems and contribute to new project development.• Oversaw the creation and execution of test cases and user acceptance testing to ensure web applications met specified requirements.• Documented development processes, system configurations, and best practices for team reference and knowledge sharing.• Debugged and troubleshoot complex code issues, providing mentorship to junior developers in problem-solving techniques.• Proactively identified and resolved technical challenges, employing critical thinking and innovative solutions throughout the development and maintenance phases.	
METATEAM MYANMAR Co.,Ltd	2022 JUL - 2024 MAR
Junior Web Developer	
<ul style="list-style-type: none">• Assisted in developing and maintaining company web applications.• Participated in QA and UAT testing to verify system functionality.• Documented system configurations for team knowledge sharing.• Debugged and troubleshoot issues in production and staging environments.	

TECHNICAL PROJECTS

- String Manipulation Gem**
- Developed a custom Ruby gem to simplify complex string operations.
- Reference Website**
- Created a reference website when beginning to study programming, customizing templates to fit needs.
- Real-time Tasks Feature**
- Implemented live updates and inline editing using Hotwire in a Rails app without custom JavaScript.
- AI Image Generator Web App**
- Built a web app that lets users upload images and transform them into stylized or cartoon versions using category-based prompts. Implemented JWT authentication, a responsive UI with Tailwind, and integrated the AI API for image generation.
